

IRFAN SISWARA

Full-Stack Developer

Karawang, West Java, Indonesia | [linkedin.com/in/irfan-siswara](https://www.linkedin.com/in/irfan-siswara)

SUMMARY

Experienced Full-Stack Developer with 4+ years of experience building enterprise web, desktop, and mobile applications across manufacturing, logistics, ERP, and data warehouse systems. Skilled in **front-end** and **back-end development**, **micro-services architecture**, **API integration**, **CI/CD workflows**, and cloud-native deployment using Docker and Kubernetes.

EXPERIENCE

INDOCYBER GLOBAL TEKNOLOGI – West Jakarta, Indonesia

Fullstack Developer (February 2025 - May 2026)

- Developed enterprise web and desktop applications using **React.js**, **Express.js**, **ASP.NET**, and **C# WinForms**.
- Built and maintained REST APIs, GPS tracking systems, ERP manufacturing systems, and Vehicle ID (VIN)-based data warehouse platforms.
- Managed deployment workflows and infrastructure using **Docker**, **Kubernetes**, **Apache Kafka**, **Apache NiFi**, and **Apache Airflow**.
- Integrated enterprise systems, optimized application performance, and ensured production system reliability, scalability, and maintainability.

PT. PRASMA DAYA REKA – South Jakarta, Indonesia

Fullstack Developer (June 2024 - January 2025)

- Developed enterprise web and desktop applications using **Vue.js**, **Express.js**.
- Built and maintained REST APIs and ERP manufacturing systems.
- Managed deployment workflows and infrastructure using **Docker**, **Kubernetes**.
- Integrated enterprise systems, optimized application performance, and ensured production system reliability, scalability, and maintainability.

PT. BEE SOLUTION PARTNERS – Bandung, Indonesia

Fullstack Developer (November 2021 - May 2024)

- Built enterprise applications using **Vue.js**, **React.js**, **Laravel**, and **FastAPI**.
- Integrated APIs, databases, and third-party enterprise services.
- Optimized application performance and maintained scalable architectures.
- Worked on webinar platforms, visitor management systems, and Android-based POS applications.

PT. BEE SOLUTION PARTNERS – Bandung, Indonesia

Fullstack Developer Intern (July 2020 - Augustus 2020)

- Developed frontend and backend application features using **Laravel** and **MySQL**.
- Designed relational database structures and project **documentation**.
- Created UI/UX wireframes and clickable prototypes using **Figma**.
- Collaborated with teams to analyze business requirements and deliver technical solutions.

EDUCATION

BINA NUSANTARA UNIVERSITY (2016 - Now)

Bachelor of Computer Science

BANDUNG STATE POLYTECHNIC (2018 - 2021)

Associate Degree in Informatics Engineering

SKILLS

- Programming Languages: C, C++, C#, CSS, PHP, HTML, Java, JavaScript, Typescript, Kotlin, Python, SQL
- Frameworks: Laravel, CodeIgniter, Bootstrap, React.js, Vue.js, Express.js, Material Design, Fastapi, ASP.NET, WinForms, Single Spa
- Application Servers: Apache, Nginx, Internet Information Services (IIS), Node.js
- Databases: MySQL, PostgreSQL, SQL SERVER, Oracle
- Operating Systems: Windows, Linux
- Development Tools: Microsoft Office, MobaXterm, Visual Studio Code, Android Studio, SSMS, pgAdmin, DBeaver, Unity, Figma, Git, Docker, Kubernetes, Jenkins, Nifi, Kafka, Airflow
